Huawei Sunshine Pack Battery

Overview

What is Huawei smart string energy storage system?

With Huawei Smart String Energy Storage System, you can power your life by green power storage and be astonished by its admirable performance. No matter nights, rainy days or unexpected blackouts off the grid, the solar power is always at your request as a real bank. The built-in optimizer independently manages each battery module.

What kind of battery does the Huawei luna2000-s0 have?

The new Huawei LUNA2000-S0 battery is composed of a LUNA2000-5KW-C0 BMU or BMS control module and 1 to 3 LUNA2000-5-E0 lithium battery modules. Huawei LUNA2000 15kWh Lithium Battery Installation To provide maximum protection for both the inverter and the system in general, we recommend installing a Protection and Pre-Installation Kit.

Is Huawei launching a solar battery in 2021?

In 2021 Huawei has entered the residential solar battery market with their Luna2000 battery. The battery's lithium-iron phosphate cells have a modular design and can be scaled from 5kWh to 30kWh.

How long does a Huawei battery last in Australia?

Compare quotes from up to 7 installers in your area now. Like most battery solutions in Australia Huawei offer a 10 year warranty for their battery. For each 5kWh module there is a life cycle power discharge of 16.45MWh stated in the warranty document with an estimated 60% capacity at end of life.
