Huawei installs solar panels in West Asia

Overview

What is a 100 MWp solar power plant in Indonesia?

Heaptalk, Jakarta — PLN, in collaboration with PT Aruna Cahaya Pratama (Aruna PV), China Power Hubei, and Huawei, to finalize the installation of the ground-mounted solar power plant in Indonesia with the capacity of 100 Megawatt peak (MWp), located at the Bukit Indah Industrial Zone in Purwakarta, West Java.

Who is Huawei digital power & peak energy?

[Shanghai, China,] Huawei Digital Power and Peak Energy, a leading Singapore-based Independent Power Producer (IPP), officially signed a Memorandum of Understanding (MoU) at SNEC 2025, forming a powerful alliance to fast-track the rollout of renewable energy solutions across the Asia-Pacific C&I sector.

How will Huawei contribute to a green industrial area in Purwakarta?

The green power project involves the installation of 170,000 solar panels and 240 inverters over an area of 85 hectares. “Our involvement in the Puwakarta 100 MW project is Huawei ’s tangible contribution in implementing the concept of a green industrial area in Purwakarta.

Why is Huawei reshaping the future of Energy Innovation?

By leveraging Huawei’s cutting-edge digital power technologies and Keppel’s expertise in energy management, we are not only meeting the growing demand for renewable energy to support Singapore’s global leading position in green development – we are reshaping the future of energy innovation.
