# Installation conditions of Dodoma solar container substation

Solar Panel

Hybrid Inverter

Lithium Battery

Battery Cabinet

## Overview

---

What is a containerized mobile substation?

Containerized mobile substations are sheltered and address applications in challenging environmental conditions including areas of high pollution, and humidity. Customers requiring shorter overall delivery times and minimal on-site work have been the main drivers for Hitachi Energy's development of pre-fabricated indoor substations.

What is a skid-mounted substation?

Skid-mounted Substations offer fast and easy deployment, minimizing civil works as well as installation and commissioning effort on site. Containerized mobile substations are sheltered and address applications in challenging environmental conditions including areas of high pollution, and humidity.

Why did Hitachi energy develop a pre-fabricated Indoor Substation?

Customers requiring shorter overall delivery times and minimal on-site work have been the main drivers for Hitachi Energy's development of pre-fabricated indoor substations. [Learn More.](#)

What is a containerised substation?

Containerised substations are constructed and tested at our factory to allow quick 'plug and play' installation and commissioning on-site. We sell and hire containerised equipment on a 'supply only' basis, or with optional on-site installation, cable works and commissioning by our own Contracting division. Looking for containerised solution?
