

Iraq portable power inf company

Application scenarios of energy storage battery products

Overview

Does Iraq have a reliable power supply?

Access to a reliable and uninterrupted power supply has yet to be made available in Iraq despite changes in the electricity sector.

How is Iraq transforming its energy infrastructure?

Iraq is making strides in modernizing its energy infrastructure, backed by new legislation and regulatory frameworks that reinforce the critical electricity sector.

Which is the largest thermal power plant in Iraq?

AL KHAIRAT THERMAL POWER PLANT: THE LARGEST THERMAL POWER PLANT IN IRAQ. Aligned with the development of the Karbala Refinery—a facility designed to process 140,000 barrels per day of heavy, high-sulfur fuel oil (HSFO)—the Iraqi Ministry of Oil launched plans for a thermal power plant to utilize this fuel.

Who owns Al Khairat thermal power plant?

As part of this transformation, Harlow International Limited, a member of the Harlow Group, is proud to be the project owner and investor of Iraq's largest thermal power plant, the Al Khairat Thermal Power Plant. This flagship project will generate over 10% of Iraq's total power demand, significantly boosting the country's energy capacity.
