Italian 100W solar street light

 **LFP 12V 200Ah**

Overview

What are solar-powered street lights?

This series of solar-powered solar panel lights use a huge LED module, which increases the quantity of lamp beads for each LED module. Compared to conventional solar street lights, our enlarged solar-powered outdoor street lights can effectively increase the brightness by 10-20%. Mainstream integrated structure design, saving transportation costs.

What is anern 100 watt solar street light?

Anern 100W solar street light is an energy-efficient and eco-friendly lighting solution designed for outdoor use. This 100 watt solar street light harnesses solar energy through high-efficiency photovoltaic panels, converting sunlight into electricity to power its high-lumen LED lights.

What are an-SLZ solar street lights?

AN-SLZ series all-in-one solar street lights are Anern's latest patented integrated led solar street lights. This series of solar-powered solar panel lights use a huge LED module, which increases the quantity of lamp beads for each LED module.

How many lumens does a 100 watt solar street light provide?

S2 Series 100 watt solar powered street light provides 12000LM and 15000lm system lumens optional since the best quality LEDs are being applied. High brightness will definitely increase visibility and reduce the risk of accidents in the public areas at night.
