Italian 21700 solar container lithium battery pack

Overview

What is a 21700 battery?

A 21700 battery is a high-capacity, rechargeable lithium-ion cell designed for superior energy efficiency and performance. With a standard size of 21mm in diameter and 70mm in length, these batteries were developed as a next-generation improvement over 18650 cells, offering increased power output, extended runtime, and higher energy density.

What is the difference between 18650 and 21700 lithium-ion batteries?

Compared to 18650 batteries, these 21700 batteries are known for their higher energy density, large size, and power output. They are friendly to the environment and earth and can be reused many times. Why Choose the Sunpower 21700 lithium-ion battery?

.

Who makes 21700 Li-ion batteries?

Sunpower New Energy manufactures high-quality lithium-ion 21700 batteries, with UL, CB, and UN38.3 certifications. MOQ=2. Get Quotes for 21700 li-ion batteries.

What is the difference between protected and unprotected 21700 batteries?

Protected 21700 Batteries: Feature an integrated protection circuit to prevent overcharging, over-discharging, and short circuits. These are slightly longer than standard 21700 cells. **Unprotected 21700 Batteries:** Designed for battery packs or high-performance applications where external battery management systems (BMS) handle protection.
