Italian Translucent Glass solar Sun Room

Overview

Are sunroom bioclimatic greenhouses eco-sustainable?

Sunroom bioclimatic greenhouses are also one of the most efficient solutions for taking advantage of solar energy and fall under the category of eco-sustainable architecture: like true passive solar systems, they can provide various advantages in terms of energy savings in the building.

Is sunroom participating in the Saudi industry forum 2025?

We are excited to announce that Sunroom will be participating in the Saudi Industry Forum 2025, alongside our local partner Khazal Metal Industries and with the support of Heroes Force Consulting. We are happy to share with you the interview given by our CEO Michele Leardini to IPCM magazine, a reference point in the industrial coatings industry.

Where can Photovoltaic Glass be used?

Our photovoltaic glass has already been installed in a wide variety of buildings in more than 350 projects worldwide. Buildings such as corporate offices, hotels, skyscrapers, airports, railway stations, government buildings, museums, and even historic buildings can benefit from our photovoltaic glass solutions.

Which buildings can benefit from Photovoltaic Glass Solutions?

Buildings such as corporate offices, hotels, skyscrapers, airports, railway stations, government buildings, museums, and even historic buildings can benefit from our photovoltaic glass solutions. Dubai Frame
