Kabul ups battery cabinet integrated system

Overview

What is mpinarada integrated battery cabinet solution?

MPINarada integrated battery cabinet solution offers aturn-key battery and battery cabinet option for UPS battery backup. Cabinet solutions are available in both size and color to match most UPS system manufacturers.

Does unified power offer battery cabinets?

Unified Power offers a complete line of battery cabinets for both UPS and Telecom Applications. These cabinets can be configured to match OEM cabinets and offer a competitive option for system upgrades or new projects. Features Space saving foot print is the industry's most compact design.

What is the battery capacity of the UPS system?

The UPS system uses batteries in the battery cabinet to provide power during disruptions. The battery capacity is 34.6 kWh. The system is lithium-ion based and can support up to 5 MW in parallel.

What is a battery cabinet?

A battery cabinet is a housing designed to hold batteries used to power an uninterruptible power supply (UPS) system. In the event of a power disruption or outage, the UPS system ensures that your devices continue to operate from the energy stored in the batteries in the battery cabinet. Lithium-ion 34.6 kWh-parallel up to 5 MW.
