Kuala Lumpur rooftop solar power generation system

Overview

Can you rent a rooftop solar system in Malaysia?

The program allows homeowners to lease or rent their rooftop for solar generation, with the electricity produced sold to commercial and domestic customers within a 5 km radius. Malaysia's Ministry of Energy Transition and Water Transformation (PETRA) has launched the country's first aggregation initiative for rooftop solar systems.

What is cream - Malaysia's first rooftop solar aggregation scheme?

Malaysia has taken a bold step forward in its renewable energy transition with the launch of the Community Renewable Energy Aggregation Mechanism (CREAM) — the nation's first rooftop solar aggregation scheme.

Why is Malaysia launching a rooftop solar leasing scheme?

Malaysia has launched a rooftop solar leasing scheme to promote renewable energy and reduce electricity costs, especially for B40 and M40 households. The initiative allows homeowners to lease their rooftops for solar power generation. Third parties will aggregate multiple rooftops to supply green electricity to local consumers.

What is Malaysia's first rooftop aggregation initiative?

Malaysia's first rooftop aggregation initiative for solar systems is now live. The program allows homeowners to lease or rent their rooftop for solar generation, with the electricity produced sold to commercial and domestic customers within a 5 km radius.
