# **Kyrgyzstan government communication solar base station relocation**

## Overview

---

What is Kyrgyzstan's solar energy project?

The solar energy project aligns with Kyrgyzstan's Energy Sector Development Strategy, which aims to develop 1,500 MW of renewable energy by 2035. This strategy, supported by the World Bank, seeks to diversify the energy sector, increase domestic electricity generation, and reduce greenhouse gas emissions.

When will Kyrgyzstan's solar energy project start?

The second phase of the tender is expected to commence soon. The solar energy project aligns with Kyrgyzstan's Energy Sector Development Strategy, which aims to develop 1,500 MW of renewable energy by 2035.

Will Kyrgyzstan implement two solar power plant projects?

As part of the International Energy Investment Forum in Vienna, the Ministry of Energy and the Ministry of Economy and Commerce of Kyrgyzstan signed an agreement with the International Finance Corporation (IFC) on implementation of two solar power plant projects. The press service of the Ministry of Economy reported.

Does Kyrgyz Republic have a solar energy project?

The Kyrgyz Republic is making significant strides in solar energy development. The recent signing of a memorandum of understanding between the Ministry of Energy and the Ministry of Economy and Commerce with the International Finance Corporation (IFC) marks a key step forward in the second phase of a major solar power project.
