Overview

How many electric vehicles have been imported into Laos?

As of April 2023, a total of 3,895 electrically powered vehicles had been imported into Laos, of which 1,773 were motorbikes. VIENTIANE, Oct. 1 (Xinhua) -- Due to the spiraling cost of fuel, more and more people in Laos are switching to electric vehicles (EVs) with the aim of saving fuel costs and reducing air pollution.

Why is Lao promoting electric vehicles?

The Lao government is strongly encouraging the use of electrically powered vehicles in a bid to reduce the need for imported fuel and ensure greater energy security.

How many electric vehicles are there in Laos in 2023?

The surge in electric vehicle (EV) adoption in Laos has seen remarkable growth in 2023, Laos experienced growth in electric vehicle (EV) sales, totaling 4,631 units, which included 2,592 cars and 2,039 motorbikes.

Does Laos have an EV market?

Burgeoning EV Market Growth: In 2023, Laos experienced substantial expansion in its EV market, marked by the sale of 4,631 EVs, indicating an increasing inclination towards sustainable transportation options. Nonetheless, the uptick in EV usage is hindered by inadequate infrastructure, exemplified by Laos' possession of merely 41 charging stations.
