We stock a large selection of UPS - Uninterruptible Power Supplies, including new and most popular products from the world's top manufacturers including: Apc, Schneider Electric, Phoenix Contact, Siemens & Ea Elektro-automatik Information unavailable.

What is a ups & how does it work?

UPS stands for Uninterruptible Power Supply. A UPS is a device that immediately takes over the power supply in the event of a power failure and supplies it to the connected systems. UPS stands for 'Uninterruptible Power Supply', translating to 'uninterrupted power supply'. UPS systems are also referred to as no-break or emergency power supplies.

What is Schneider Easy Ups 1 pH on-line?

Schneider Easy UPS 1 Ph On-Line is a versatile, high quality, cost competitive UPS developed to handle a wide voltage range and inconsistent power conditions. Easy UPS Line Interactive is an Uninterruptible Power Supply (UPS) designed for essential power protection in the most unstable power conditions.

What is a continuous power supply (UPS)?

UPS is the short version of "uninterruptible power supply". In many applications a continuous power supply is important because power fluctuations and outages can cause damage to control equipment as well as unexpected down time. This situation can lead to a loss of productivity and revenue.
