# **Lead-acid battery cabinet includes**

## Overview

---

What is outdoor lead acid battery cabinet?

Outdoor Lead Acid Battery Cabinet mainly provides a stable working temperature and dust-free environment for lead acid battery, they are integrated with thermal insulation and equipped with air conditioner of different refrigerating capacity.

Which accumulator batteries are included in the cabinets covered by the technical specification?

The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries.

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

How many batteries can a battery cabinet support?

The battery cabinets are available in five different mechanical dimensions. They can facilitate multiple combinations of batteries, up to 63 battery blocks, connected in series and parallel configurations with positive, negative, and mid-point poles. The battery cabinets also support a maximum Direct Current (DC) voltage of 800Vdc.
