Lifepo4 power station factory in Brisbane

Overview

What is a LiFePO4 battery?

Big Wei is committed to introducing advanced LiFePO4 battery technology to Australians with an extensive range of durable, long lasting high power deep cycle batteries. Lithium Iron Phosphate (LiFePO4) batteries are one of the safest, most durable and reliable energy sources on the market.

Who is LiFePO4?

The pioneers and longest established lithium battery solutions provider in Australia. 2017 marks our 10 years anniversary since we introduced the very first Lithium Iron Phosphate (LiFePO4) battery to Australia from the USA. You can read more about the introduction of the LiFePO4 battery to Australia on our FAQ page.

When was LifePo4 Australia started?

We started LifePo4 Australia after 2016, when we were planning a trip around Australia and wanted to have reliable and affordable power for our off-grid camping.

Who makes BWB LiFePO4 batteries?

All the components and accessories are made of the best materials, not to mention a highly skilled team with superb electrical skills and thus Big Wei is able to produce a series of high-quality lithium batteries – BWB LiFePO4, locally in Australia. BWB LiFePO4 products have excellent performance and are deeply loved by our customers!
