Lifepo4 power station factory in Chicago

Power Conversion System

- Single-stage three-level modularization
- Multi-branch input to reduce battery series and parallels connection

Overview

Does gotion have a battery factory in Illinois?

Gotion invests in battery plant in US Illinois, may start production next year On September 9, a surging news reporter confirmed from Gotion (002074), headquartered in Hefei, Anhui Province, that Gotion has been constructing a battery super factory in Manteno, south of Chicago, Illinois, through its subsidiary, Guoxuan America (Gotion Inc).

Will Illinois get a new battery manufacturing plant?

An electric vehicle is pictured charging in Chicago. (Andrew Adams / Capitol News Illinois) A new battery manufacturing plant is set to open in northern Illinois next year after the state offered more than \$330 million in tax incentives to make it happen.

How many jobs will a new battery plant create in Illinois?

The roughly \$2 billion project is set to create 2,600 jobs and begin production in 2024. The plant will produce battery cells, battery packs like the kinds used in electric vehicles and large-scale energy storage systems. Gov. J.B. Pritzker on Tuesday called the development “the most significant new manufacturing investment in Illinois in decades.”.

Will pure lithium move to Chicago?

The Boston startup said it will relocate to the West Loop this fall and create at least 50 new jobs. Battery startup Pure Lithium will relocate from Boston to Chicago and invest \$46 million to expand in the city’s growing tech hub, the company announced on Thursday.
