Will Zijin start producing lithium in the Democratic Republic of Congo?

(Image courtesy of AVZ Minerals.) China's Zijin Mining Group Co. aims to start producing lithium in the Democratic Republic of Congo early next year from one of the world's largest deposits of the battery metal. Zijin is accelerating activity at a site in southeast Congo that's still claimed by AVZ Minerals Ltd.

When will Zijin's first Lithium Exploration Project start?

According to SCMP, on January 7th, Zijin Mining Group has announced that its first lithium exploration project in the Democratic Republic of Congo (DRC), the Manono lithium mine, is set to begin production in the first quarter of 2026.

Why are Chinese companies investing in Africa's lithium resources?

Chinese companies including Zijin are investing heavily in Africa's lithium resources from Mali to Zimbabwe, even after prices slumped almost 90% from a peak in 2022. They are seeking to lock down feedstock for refineries at home in anticipation of soaring future consumption of the metal.
