# Lithuania battery pack

## Overview

---

When will the new battery pack production in Lithuania be fully operational?

The new battery pack production in Lithuania (Vilnius) is scheduled to be fully operational by January 2023.

What is Lithuania's first commercial battery storage site?

This facility, which is set to become Lithuania's first commercial battery storage site, will significantly increase the country's storage capacity by around 50%. The project, located near the capital city of Vilnius, is expected to be operational by the end of 2025.

Why does Lithuania need reliable energy storage?

Uloza pointed to the growing demand for reliable energy storage as Lithuania's renewable energy sector expands.

What is E-Energija doing in Lithuania?

E-energija Group has commenced construction on Lithuania's largest battery energy storage system (BESS) project, the 120MWh Vilnius BESS. This facility, which is set to become Lithuania's first commercial battery storage site, will significantly increase the country's storage capacity by around 50%.
