# **London solar Energy Storage Base Project**

## Overview

---

Who owns the UK's largest co-located solar & battery storage project?

German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co-located solar and battery storage project in the country. Langford Solar Farm in Devon. (credit: RWE).

How many MW of solar & battery storage are there in the UK?

Combined, these projects represent 577 MW of solar capacity along with 105 MW of co-located battery storage. German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co-located solar and battery storage project in the country.

What is the fortress solar PV Park- Battery energy storage system?

The Fortress Solar PV Park-Battery Energy Storage System is a 150,000kW lithium-ion battery energy storage project located in Kent, England, the UK. The electro-chemical battery storage project uses lithium-ion battery storage technology. The project was announced in 2020 and will be commissioned in 2024.

How many solar projects are there in the UK?

In the UK, RWE has 11 solar projects under construction and recently brought online its first UK solar site, Langford. Combined, these projects represent 577 MW of solar capacity along with 105 MW of co-located battery storage.
