# Mexico new energy solar panel manufacturer

## Overview

---

Who manufactures solar panels in Mexico?

2. Maxeon Solar Technologies (Singapore/USA) With 93% of Mexico's module production capacity, Maxeon continues to expand its manufacturing presence in the country. Their premium Interdigitated Back Contact (IBC) technology commands premium prices in the commercial and residential segments.

Does Mexico have a solar energy sector?

Mexico's solar energy sector is growing at an unprecedented rate, establishing the country as a leading player in the renewable energy market. The commitment to clean energy has seen an increase in domestic manufacturing of solar panels, thus boosting the country's economic potential and self-sustainability.

Who is the best solar company in Mexico?

Gauss Energy (Mexico) As Mexico's leading domestic solar developer, Gauss Energy continues to pioneer large-scale projects with integrated storage solutions. Their Aura Solar III project (220MW with 80MWh storage) represents the country's most advanced solar-plus-storage facility, achieving 37% better grid utilization. 6. LONGi Solar (China).

Why should you choose a solar panel manufacturer in Mexico?

Mexico's solar energy sector is experiencing rapid growth, driven by rising demand for clean energy and strong government support. As the country continues to embrace renewables, choosing the right solar panel manufacturer in Mexico has never been more crucial—whether you're a developer, distributor, or EPC contractor.
