# **Middle East Company Wind Solar and Storage**

## Overview

---

Is wind energy a business opportunity in the Middle East?

While solar has become a popular avenue for companies in the Middle East due to its solar yield and reliability, wind energy is also becoming an opportunity for business growth. ACWA Power and Envision Energy are developing a 1.1 GW wind farm in Egypt's Suez Gulf region, which has the highest wind potential in the country.

Will Egypt's first large-scale solar project be a Bess project?

Egypt's Upper Qena region will soon encompass the country's first large-scale hybrid solar and BESS project.

Who is the largest solar developer in Egypt?

Scatec entered the Egyptian market in 2015 with 380MW operational, and it has grown to become the largest solar developer in the country. The Obelisk solar plant will feature high-efficiency monocrystalline silicon panels mounted on single-axis trackers, maximising exposure to the sun throughout the day.

Is Saudi Arabia a good place to invest in solar power?

The Mohammed Bin Rashid Al Maktoum Solar Park's ongoing expansion, which aims to reach a capacity of 7,260MW by 2030, continues to create demand for a skilled workforce, making it an attractive destination for professionals across the region. Saudi Arabia is also making strides with its solar ambitions.
