Mobile outdoor uninterruptible power supply

Overview

What is an outdoor Uninterruptible Power Supply?

An outdoor Uninterruptible Power Supply is a power solution designed for critical applications where it's essential that equipment stays running in harsh outdoor environments and significant temperature variations, where an ordinary UPS would fail. Trust TSi Power for these applications.

How do uninterruptible power supplies work?

Uninterruptible power supplies (UPS) automatically test their batteries regularly, typically every 24 hours, by placing a load on the battery set and monitoring the discharge performance. This is how they work.

What is outdoor UPS & how does it work?

Outdoor UPS is designed for extreme demanding environments where clean backup power is needed. Built-in with AVR function, it helps to maintain normal operation without transferring to battery mode during . charging current The battery backup system provides constant and reliable backup power to outdoor equipment.

Does TSI power offer outdoor xups?

TSI Power's Outdoor XUPS series of rugged outdoor uninterruptible power supplies is the ideal way to supply backup power in extreme environments. TSI Power offers a comprehensive suite of accessories for the Outdoor XUPS. Mounting brackets, battery heaters, maintenance bypass switches, security solutions, and more are available.
