Moscow energy storage power station landed

Overview

What is the capacity of Russian electric power system in 2025?

According to the "Scheme and Program for the Development of Electric Power System of Russia for 2025-2030", released by the Russian Ministry of Energy in November 2024, Unit 10 will be replaced by Unit 10R in 2025, and the unit's capacity will reach 250 MW.

Will Tesla's first grid-side energy storage station be built in China?

It will be Tesla's first grid-side energy storage station to be built on the Chinese mainland. Dong Kun, general manager of Tesla China's energy business, said the station, once launched, will participate in electricity spot trading, helping balance peak and off-peak power demand in the local grids and enhance grid stability.

Where is Tesla's gigawatt-hour-scale energy storage station located?

The gigawatt-hour-scale energy storage station is to be located in the Lin-gang Special Area of China (Shanghai) Pilot Free Trade Zone, as per the deal signed by Tesla, the administrative committee of the Lin-gang Special Area, the people's government of Shanghai's Fengxian District, and China Kangfu International Leasing Co., Ltd.
