

Multifunctional DC Uninterruptible Power Supply

Overview

How do I Choose an uninterruptible power supply for DC applications?

Our uninterruptible power supplies for DC applications provide reliable protection against supply interruptions. Select the appropriate DC UPS for your application. Our uninterruptible power supplies for AC applications provide a pure sine curve at the output. Select the ideal AC UPS and ensure superior system availability.

What is an uninterruptible power supply (UPS)?

Uninterruptible power supplies (UPS) protect the 24 V supply voltage against unexpected power failures. In the BLOCK portfolio, capacitive UPS solutions provide 24 V DC power supply for up to several minutes. Equipped with ultracapacitors, these solutions are designed for long service life and operation in demanding temperature ranges.

Why should you choose Phoenix Contact uninterruptible power supplies?

Ensure superior system availability with our power supply systems. Find out about power supplies, DC/DC converters, redundancy modules, and uninterruptible power supplies for various requirements and industries. Phoenix Contact uninterruptible power supplies for AC and DC applications provide reliable protection against supply interruptions.

What is a DC-UPS power supply?

DC-UPS (Direct Current Uninterruptible Power Supplies) are essential wherever reliable backup of auxiliary circuits is critical to ensure system integrity and the safety of people and equipment.

Multifunctional DC Uninterruptible Power Supply

Our uninterruptible power supplies for DC applications provide reliable protection against supply interruptions. Select the appropriate DC UPS for your application. Ensure superior system availability with our power supply systems. Find out about power supplies, DC/DC converters, redundancy modules, and uninterruptible power supplies for various requirements and industries. Phoenix Contact uninterruptible power supplies for AC and DC applications provide reliable protection against supply interruptions.

DC-UPS (Direct Current Uninterruptible Power Supplies) are essential wherever reliable backup of auxiliary circuits is critical to ensure system integrity and the safety of people and equipment.

Uninterruptible Power Supply (UPS) Systems Uninterruptible Power Supply (UPS) Systems are units designed to supply electrical power to external devices for a few minutes during a power ...

The DUPS-28-MDC-300-A02 model is a DC uninterruptible power supply with fixed-voltage multiple outputs. Thanks to its integrated ...

The Power Inspired iPowers are a range of DC output Uninterruptible Power Systems

(UPS) designed to provide extended autonomy for primarily IT, ...

Uninterruptible power supplies (UPS) protect the 24 V supply voltage against unexpected power failures. In the BLOCK portfolio, capacitive UPS ...

DCU Series DC-UPS (Direct Current Uninterruptible Power Supplies) are essential wherever reliable backup of auxiliary circuits is critical to ensure system integrity and the safety of people ...

Phoenix Contact uninterruptible power supplies for AC and DC applications provide reliable protection against supply interruptions.

Uninterruptible power supplies (UPS) protect the 24 V supply voltage against unexpected power failures. In the BLOCK portfolio, capacitive UPS solutions provide 24 V DC power supply for ...

The DUPS-28-MDC-300-A02 model is a DC uninterruptible power supply with fixed-voltage multiple outputs. Thanks to its integrated BB2590 battery, it activates when input ...

The Power Inspired iPowers are a range of DC output Uninterruptible Power Systems (UPS) designed to provide extended autonomy for primarily IT, Security and Telecoms equipment.

DCU Series DC-UPS (Direct Current Uninterruptible Power Supplies) are essential wherever reliable backup of auxiliary circuits is critical to ensure ...

Uninterruptible DC emergency power supply for fail-safe systems in industrial and medical applications Our DC UPS systems for 12?V / 24?V / 48?V provide an uninterruptible power ...

The reliable DC-UPS from PULS ensure highest system availability. The uninterruptible power supplies are available with capacitor storage or ...

The reliable DC-UPS from PULS ensure highest system availability. The uninterruptible power supplies are available with capacitor storage or VRLA batteries.

UPS Uninterruptible Power Supply, Supports 5V, 9V, 12V Multi-Voltage Mini DC UPS Battery Backup for Router, Modem, Security Camera, Power Outage Protection, Home ...

Data Center and Facility 3 Phase UPS 3 Phase UPS power protection, solving today's energy challenges while setting the standard for quality and innovation with fully integrated solutions ...
