Overview

Why should you choose green solar energy in the Bahamas?

Why choose green solar energy in the Bahamas?

A reliable, safe and clean form of energy. With power costs at approximately \$0.42/kwh and worldwide fuel costs constantly increasing, solar is an efficient and environmentally responsible alternative to mains power.

What is the focus of Island Solar?

Island Solar is based in Nassau, Bahamas and is committed to installing safe, high quality, code compliant and long lasting solar electric (photovoltaic) systems in the Bahamas and across the Caribbean.

Can a mobile solar container run a petroleum company?

Once deployed, runs indefinitely without the need to supply fuel. Petroleum companies often operate in distant locations with limited access to grid power. This is where a mobile solar containers can act as an additional power source to run the equipment.

Who is Island Solar?

Island Solar is a company based in Nassau, Bahamas that specializes in installing solar electric (photovoltaic) systems. They focus on commercial systems ranging from 50 kW to multi-megawatt utility scale systems, ensuring safety, high quality, and code compliance.
