Nordic Portable Power Bank

Higer conversion efficiency

CAN/RS485/WIFI/4G
Blue tooth communication

20 Kwh

30 Kwh

50 Kwh

Thick shell, well protection for inside cells

BMS customization supported

The advertisement features three stacks of white, portable power banks on wheels. The stacks are labeled with their capacities: 20 Kwh, 30 Kwh, and 50 Kwh. The background shows a house and a snowy mountain range. The text highlights features like high conversion efficiency, communication capabilities (CAN, RS485, WIFI, 4G, Bluetooth), a thick protective shell, and BMS customization support.

Overview

How much does a power bank cost?

Iniu Power Bank Ba1-B64 for \$80: Offering relatively low prices, Iniu is a power bank brand on the rise. This portable charger packs a 27,000-mAh capacity, can put out up to 140 watts, and charges three devices at once via two USB-C ports and a single USB-A port.

Should you use a power bank?

Whether you own one of today's best iPhones or best Androids, you could use a power bank. Today's top phones can hold a charge longer, but if you take a lot of photos and use the newest AI features, you'll drain the battery fast.

Which power bank is best?

Our favorite 1. Anker MagGo Power Bank (10K, Slim) Best small 2. Iniu P50-E1 Best for power users 3. Anker 737 Power Bank (PowerCore 24K) Best magnetic 4. Anker MagGo Power Bank (10K) Best cute magnetic 4. Ugreen Uno Magnetic Wireless Power Bank 10000mAh 15W Whether you own one of today's best iPhones or best Androids, you could use a power bank.

How much power does a power bank give a phone?

Our testing shows that a power bank can offer your phone between 70-80% of the power it contains, or more depending on the battery. It loses the rest due to the inefficiency of the power transfer. That means a 5,000 mAh battery can fully charge a phone with a 3,500 mAh battery, like an iPhone 16.
