Organic solar panels in Luanda

Overview

Does Angola have a solar energy project?

An agreement for the provision of \$900 million in funding to support the implementation of the Angola Solar Energy Project was reached between Angola's Ministry of Energy and Water and the U.S. Export-Import Bank in June 2023.

Who is tasked with the construction of the Angola solar energy project?

Clean energy firm MCA Group has been tasked with the construction of the projects. An agreement for the provision of \$900 million in funding to support the implementation of the Angola Solar Energy Project was reached between Angola's Ministry of Energy and Water and the U.S. Export-Import Bank in June 2023.

How many solar plants are there in Angola?

Angola started operations at two solar energy facilities – the 188 MW Biopio Solar Plant and the 96 MW Baia Farta Solar Plant – in Benguela province in August 2022. The projects were developed by MCA Group with funding provided by the International Bank for Reconstruction and Development (IBRD) and the French Development Agency (AFD).

When did Angola start a solar project?

A final investment decision for the project was reached in December 2021. Angola started operations at two solar energy facilities – the 188 MW Biopio Solar Plant and the 96 MW Baia Farta Solar Plant – in Benguela province in August 2022.
