Outdoor battery cabinet basic production site

Overview

What is an outdoor Battery Cabinet?

Outdoor battery cabinet protects contents from harmful outdoor elements such as rain, snow, dust, external heat, etc. Plus, it provides protection to personnel against access to dangerous components. As a famous manufacturer in China, KDM supplies thousands of outdoor battery cabinets for different purposes.

Why do you need an outdoor Battery Cabinet?

The cabinet is designed specifically to protect it from human damage, water, dust and other damages. Climate controlled products such as air conditioners, heat exchanger, or TEC coolers are installed on outdoor battery cabinet for keeping a stable temperature inside cabinet so as to increase service life and stability of battery.

What is a battery cabinet made of?

The cabinets are made of galvanized steel or aluminium, making them easy to position and providing a long service life. A slide-in racking system allows for easy installation of 19" rackmount style battery modules along with rain protected vents on both sides and on top for passive ventilation.

What is the best material for outdoor battery cabinets?

Stainless Steel – KDM can fabricate outdoor battery cabinets from different variants of steel. It has specific characteristics, corrosion-resistant and durable. Aluminium – a material that is affordable and versatile. It also offers ventilation and heat reduction features perfect for fabricating outdoor battery cabinets.
