## Overview

---

Do portable power stations make camping better?

A good portable power station makes camping better. These devices power lights, phones, and small appliances when you're outdoors. We spent three months testing power stations to find the best portable power stations for camping. We tested 30 portable power stations over 12 camping trips.

What types of batteries are used in portable power stations?

The two main classes of batteries you'll see right now in portable power stations are LiFePO4 and NCM. LiFePO4 batteries utilize lithium, iron, and phosphate, and are considered safer and longer lasting than other batteries.

What is the best portable power station?

A heavyweight beast of a power station, this unit boasts battery expansion, loads of ports, and the high battery capacity and output required to effectively run an RV, offer home back-up power supply, charge an EV, or help you live van life to the fullest. Read more below 4. Jackery Explorer 1000 V2 Best portable power station for on-site work.

Can a portable power station charge a car battery?

Like many portable power stations today, it supports solar panel charging, generator hookups, and car battery recharging -- making it a great option for camping as well. EcoFlow also says devices drawing less than 100 watts will get double the battery life.
