# Pack solar container energy storage system in Auckland New Zealand

## Overview

---

Are solar power systems a good investment in New Zealand?

We discuss our clients' requirements and provide a detailed Energy Management Solution to meet their needs. Solar power systems are a fantastic investment, wherever you are in New Zealand. For a start, your electricity bills will reduce, plus you will be protected from fluctuations in electricity prices.

What is the first Renewable Project in New Zealand?

01 JUL 2024 Contact's first renewable project in Auckland to start immediately. Tesla selected as battery energy storage system supplier, the first Megapack 2 XL project in New Zealand. The battery system will discharge stored energy at a split second to significantly improve security of energy supply to New Zealanders.

Who is New Zealand solar power?

New Zealand Solar Power is a NZ owned and operated company that provides solar power solutions to Kiwi homes and businesses. Our approach is simple: Determine whether solar is right for our clients and design a tailored solar power solution to meet their needs. 2025 © New Zealand Solar Power Ltd | All rights reserved. New Zealand Solar Power Ltd.

Will contact make New Zealand's biggest battery?

Contact, in the agreement with Tesla, also has the option to expand the capacity of the battery to 130 MW at this site; a move which would make it New Zealand's biggest battery. The battery will store excess renewable electricity, often generated by the wind or sun in off-peak periods when demand is low, which would otherwise go to waste.
