Price quote for home solar container energy storage system in Ireland

Overview

How much do solar panels cost in Ireland?

In 2025, the cost of solar panels in Ireland varies depending on your system size, battery choice, and home type. Most homes will pay between €5,200 and €9,000 for a standard solar PV system. Adding a battery typically increases the total cost to €10,000–€14,500, but may also boost savings over time.

Are home battery storage systems a good idea in Ireland?

In Ireland, demand for home battery storage systems — even without solar panels — is growing rapidly as homeowners look to reduce costs and gain energy independence.

Can a solar system save you money in Ireland?

Homeowners in Ireland are switching to solar to reduce electricity bills and boost BER ratings. SEAI grants can save up to €2,400 off residential solar installations. Most systems in Ireland range from 2kW to 6kW, depending on your roof and usage. You can pair solar with battery storage to store excess energy and improve savings.

What can I expect from a solar energy grant in Ireland?

The table below gives a general idea of what to expect based on your home size: In 2025, Irish homeowners can claim up to €2,100 in SEAI solar panel grants, making solar more affordable than ever. These solar energy grants in Ireland are available nationwide and help cover the cost of rooftop systems, especially for homes built before 2021.
