

# Production battery warehouse container base station

## Overview

---

Where is the containerized battery energy storage system manufactured?

The containerized battery energy storage system has been manufactured in Odense, Denmark by the system integrator and turnkey supplier Trident Maritime Systems. The battery system will be shortly transported to Singapore and installed on board the Maersk Cape Town.

What is CIMC Yangzhou base battery swapping station/new energy vehicle containerized power station?

CIMC Yangzhou Base Battery Swapping Station/New Energy Vehicle Containerized Power Station consists of several container modules, suitable with various brand new energy cars and battery systems, integrated with battery storage, battery charging, car moving, and internet communication system.

What is battery swapping station?

Battery Swapping Station is an energy station that provides charging and quick replacement of power batteries for electric vehicles. Power change mode has a natural advantage over the traditional charging mode.
