## Overview

What is a Megatrons 1MW battery energy storage system?

MEGATRONS 1MW Battery Energy Storage System is the ideal fit for AC coupled grid and commercial applications. Utilizing Tier 1 280Ah LFP battery cells, each BESS is designed for a install friendly plug-and-play commissioning. Each system is constructed in a environmentally controlled container including fire suppression.

Why should you choose Sunway ESS battery energy storage system?

5□High degree of standardization, integration, rapid deployment, short construction and commissioning period, simplicity and easy maintenance. Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application.

What is a meg-1000 power system?

MEG-1000's enhance the flexibility, economy, and safety of traditional power systems and significantly improve renewable energy access. The 1MW BESS systems utilize a 280Ah LFP cell and air cooling system which offers a better price to power ratio.

What is a containerised energy storage system (BESS)?

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes. For installation manual, technical datasheet, inverter adjustment/testing or configuration, please send us inquiry.
