Rcb circuit breaker in China in Greece

Overview

What is RCBO circuit breaker?

RCBO is a residual current operated circuit breaker, mainly used to protect the circuit and personnel safety. It detects any current leakage in the circuit beyond the rated sensitivity and automatically disconnects the circuit in the event of a fault.

Where is RCBO used?

RCBO is widely used in residences, commercial buildings, industrial fields, medical fields, laboratories, and scientific research fields where circuits and equipment need to be protected from leakage currents.

What are the different types of RCBO?

ETEK Electric provides various types of RCBO (AC, A, S, B, EV (A+DC6mA)) to meet different application scenarios. ETEK Electric offers high-quality RCBOs that protect electrical circuits from overcurrent and faults, ensure safety for your home or business.
