San Diego Solar Lighting Prices

Overview

How much does solar cost in San Diego?

For many San Diego homeowners, the decision to go solar depends on cost. However, the range of solar installation costs can be quite wide in San Diego, with typical prices between \$20,000 to \$40,000. There are a few factors that significantly influence the price you'll pay, which we'll go over below.

How can you reduce the cost of solar in San Diego?

Solar is a major purchase, but you can get the price tag to come down a bit by being an educated shopper. Taking advantage of incentives and rebates and shopping around for quotes can bring down your cost of solar in San Diego, CA.

Are solar panels a good investment in San Diego?

Solar panels are worth it in San Diego, CA. Factors like the cost of electricity, incentives, climate, and the angle of your roof impact how quickly you'll break even on your investment compared to other areas in the U.S.

What is the cost of a 10 kW solar system in San Diego?

Doubling the system size effectively doubles the price, so you'll pay about twice that for a 20 kW system, which would cost around \$47,200 in San Diego, CA. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill.
