## Overview

---

Which companies dominated the global inverter market?

Huawei's inverter segment also delivered an outstanding performance, with the two companies dominating the global market by a wide margin. Other enterprises, such as TBEA, Senergy, Deye and Ginlong (Solis), followed closely behind.

What's going on in the solar industry?

There's lots of activity going on in the solar industry, fueled by supportive policies and global efforts to cut carbon emissions and boost renewable energy. In 2023, the global photovoltaic (PV) inverter market clocked a value of \$13.09 billion.

Who has the largest PV inverter market shipments in 2022?

In 2022, Huawei had the largest PV inverter market shipments worldwide, accounting for some 29 percent of the market. Huawei was followed by Sungrow Power Supply and Ginlong Solis in the second and third position respectively, based on shipments. Get notified via email when this statistic is updated. \* For commercial use only.

What makes SMA a great solar inverter?

**Innovative Technology:** Equipped with hybrid battery charging and smart I-V curve diagnosis capabilities, enhancing the functionality and reliability of the systems. SMA America, a prominent division of the global SMA Solar Technology AG, specializes in solar inverters suitable for residential, commercial, and utility applications.
