Seoul repair solar air conditioner

Overview

Why should you service your air conditioner regularly in Korea?

Korea has humid summers and many days with bad air quality. Therefore, it is a good idea to make sure that you service your air conditioners regularly since they help with dampness and air quality. With heavy-duty use, air conditioning units can build up dust, grime, bacteria, and even mold in the system.

Does Korea have air conditioning units?

With heavy-duty use, air conditioning units can build up dust, grime, bacteria, and even mold in the system. It may feel important to know that Korea does not have central air and heating units like in the States. Instead, most air conditioning exists as stand-alone systems with individual units in every room.

When should I get my AC cleaned in South Korea?

This means that those living in South Korea usually have their AC cleaned in the spring around April or May. If you have just moved into your apartment in the spring or summer, check with your landlord or realtor about when the air conditioning unit was last serviced. You may or may not need to get the unit serviced when you move in.
