## Overview

---

Will Serbia be able to supply electricity at market prices?

For the first time, consumers in Serbia are to be supplied electricity at market prices by a non-state-owned supplier.

How is Serbia integrating the EU acquis?

Serbia is slowly integrating the EU acquis. In 2024, Serbia adopted its NECP and amended its Energy Law, paving the way for nuclear. Two public companies control the power and gas market: EPS for electricity (around 90% of production and sales in 2024) and Srbijagas for gas (nearly 80% of total sales).

What will Serbia's energy consumption look like in 2050?

Serbia's NECP expects final energy consumption to increase by 1.3%/year between 2020 and 2050 to 13 Mtoe in 2050 (including 32% of oil, 28% of electricity, 17% of gas, and 13% of renewables and biofuels), while primary energy consumption should rise by 0.8%/year to around 20 Mtoe in 2050 (39% solid fuels, 26% oil, 20% gas, and 17% renewables).

How much gas does Srbijagas import?

Srbijagas, the national gas company is in charge of imports (2.4 bcm in 2024, -8%). Gas production has been decreasing rapidly since 2015 (-7.2%/year) to 315 mcm in 2023 (-4% in 2023), i.e., 11% of the consumption; according to preliminary estimates, it declined again in 2024 (-11%). Gas production more than doubled between 2007 and 2015.
