

## **NKOSITHANDILEB SOLAR**

# **Serbia solar container lithium battery energy storage company**

## Overview

---

How many MW of battery storage will be developed in Serbia?

Up to 200 MW of battery storage will be developed across the sites. Image: Ministry of Mining and Energy, Tanjug Plans for 1 GW of new solar in Serbia are set to go ahead after the signing of an implementation agreement.

Does Serbia have a solar project?

The contract is the latest in a line of solar projects backed by Serbia's Ministry of Mining and Energy this year, which includes plans for a 1 GW solar panel factory and another 500 MW of solar. Figures from the International Renewable Energy Agency state Serbia had deployed a total 137 MW of solar by the end of last year.

Why should Serbia invest in solar power plants?

Located throughout the country, these solar power plants will help Serbia improve energy security, avoid expensive energy imports, and achieve electricity independence at an affordable price. The modernization of the EPS and renewing Serbia's Energy Generation Portfolio will have a lasting impact on communities throughout Serbia.

How much electricity does Serbia get from fossil fuels?

Serbia currently gets more than 60% of its electricity from fossil fuels. The contract is the latest in a line of solar projects backed by Serbia's Ministry of Mining and Energy this year, which includes plans for a 1 GW solar panel factory and another 500 MW of solar.
