

NKOSITHANDILEB SOLAR

Seychelles outdoor energy storage application site

Overview

What does the Seychelles government do?

The Seychelles Government is committed to providing adequate, reliable and affordable energy to meet future energy consumption needs and to underpin strong economic growth through consumable energy initiatives. The Seychelles enjoy favourable conditions for renewable energy (RE) resources, such as wind and solar.

What is the Seychelles energy plan?

It targets an ambitious transformation and diversification of the Seychelles' currently 85 MW diesel-dominated electricity generation capacity (on Mahé, Praslin and La Digue), aiming at replacing diesel generators with domestic and international public and private financing.

Why should you set up a Seychelles offshore company?

Modern offshore companies, limited liability and no future hassles! These days, setting up a Seychelles offshore company is no longer just for tax reasons. Besides the assured complete anonymity, an improved liability structure, for example, is also the reason for incorporation.
