# **Solar Curved Tiles**

## Overview

---

How much does a curved solar roof cost?

Jackery announced new curved solar shingles at CES, blending in seamlessly with residential roofs. Jackery's XBC curved shingles promise near 25% cell conversion efficiency, exceeding traditional solar panels and other solar roofs. Modular design allows for easier installation on homes of varying sizes, with pricing ranging from \$7,000 to \$20,000.

Are curved solar shingles better than regular solar panels?

The curved design means better coverage, regardless of where the sun is throughout the day. The company said its XBC curved solar shingles can deliver "more than 25% cell conversion efficiency", which is better than most regular panels or solar roofs offered today.

Are Jackery roof solar panels curved?

Just look at the image above. That's a roof covered in Jackery's system. Not only are they curved (a first for US roof solar panels), but they even come in the popular terra-cotta red that most clay tile roofs have. Additionally, you can choose an obsidian black array.
