## Overview

---

Who owns Vivint Solar?

Acquired by Sunrun in 2020 for US\$3.2bn, Vivint Solar entered the home energy storage market in 2017 with a partnership with Mercedes-Benz Energy followed by another partnership with LG Chem. Known for its residential solar installations, Vivint has emerged as a notable player in the energy storage sector as it has expanded its offerings.

Who makes the best energy storage system?

4. Blue Planet Energy, Inc. Blue Planet Energy delivers durable, long-life energy storage using proprietary non-toxic battery technologies such as lithium ferrous phosphate. Their modular systems are celebrated for safety, energy autonomy, and resilience—qualities ideal for remote, off-grid, and eco-friendly residential projects.

Does Tesla have a battery storage business?

Tesla has been growing its energy storage business in recent years. Established as a key player in the electric automotive industry, it has diversified its offerings to include battery storage — now one of its strongest offerings. Tesla Energy's energy storage business has never been better.

Is Tesla Energy a good energy storage company?

Tesla Energy's energy storage business has never been better. Despite only launching its energy storage arm in 2015, as of 2023 the company had an output of 14.7GWh in battery energy storage systems. Its portfolio includes storage products like the Powerwall and the Megapack.
