

NKOSITHANDILEB SOLAR

Solar panels produced in Vilnius

Overview

SoliTek with 250 MW yearly solar panel capacity is the largest manufacturer of solar panels and energy storage systems in Northern Europe. 80% of their premium solar panels are exported worldwide, powering homes and businesses in Sweden, Finland, Germany, the Netherlands, and even the USA. Does Lithuania have a solar power plant?

An 850 kW solar power plant covers the building's facade and roof. It is also the first building in Lithuania to incorporate a solar power plant of this size into its facade. The IVC building is not connected to the city's heating network. The heating function is provided by 80 geothermal boreholes dug to a depth of 130 metres.

Where are SoliTek solar panels made?

In 2014, the SoliTek brand was launched, and production of glass-glass solar modules began. The company expanded into solar energy projects and installations in Lithuania by 2018. In 2020, SoliTek shifted towards battery manufacturing for solar systems, establishing partnerships for a factory in Vilnius.

Who is SoliTek solar?

Founded in 2009 as Baltic Solar Solutions and Baltic Solar Energy, SoliTek initially focused on solar cell research and production. In 2014, the SoliTek brand was launched, and production of glass-glass solar modules began. The company expanded into solar energy projects and installations in Lithuania by 2018.

Are SoliTek solar panels sustainable?

SoliTek solar panels are the first and only in the world to have the prestigious Cradle to Cradle gold certification, known as the "Oscar" of sustainability. As a manufacturer of renewable products, SoliTek goes even further. It's a net zero PV company, using exclusively 100% renewable energy in its module manufacturing.
