Solar power station for home in Brunei

Overview

Can solar power reduce reliance on fossil fuels in Brunei?

Historically, Brunei's primary energy supply has relied on fossil fuels. This first successful project demonstrates the technical and economic viability of solar power in Brunei's context, paving the way for further development in the clean energy sector and signifying a positive start in reducing reliance on fossil fuels.

Is Brunei a solar country?

Tenaga Suria Brunei, launched in 2010 with a capacity of 1.2 MWp, and Brunei Shell Petroleum's 3.3 MWp plant, launched in 2021 to power its headquarters, are also part of the country's solar portfolio. 30 MW solar plant on remediated landfill in Kg Belimbing, developed by Malaysia's Solarvest, Serikandi and Brunei government's Khazanah Satu.

When will Brunei's largest solar power plant launch?

Deputy Minister of Finance and Economy Dato Hj Khairuddin (centre) officiated the groundbreaking at the remediated landfill site. Brunei's largest solar photovoltaic power plant (SPVPP) with a 30-megawatt (MW) capacity in Kg Belimbing is slated to launch by the end of 2026, following a groundbreaking ceremony on August 11.

What is Malaysia's largest solar project?

Malaysia-headquartered clean energy infrastructure company Solarvest Holdings Berhad has announced a contract to build a 30 MW AC solar power plant in Brunei, calling it the country's largest national solar project. It will be located in a remediated landfill in Kampong Belimbing, Mukim Kota Batu, on 33.29 hectares of land.
