Solar power station for sale in Auckland

Overview

Why should you buy a portable power station in New Zealand?

New Zealanders love staying connected while they're out and about on holiday. Our range of portable power stations and solar-powered products ensures your devices are constantly charged on the go. Get the amps you need on-location and enjoy freedom from noisy generators. Shop for portable power solutions at Trade Tested online.

What is a portable power station?

A portable power station, often referred to as a portable power generator or power bank. A compact device that stores electrical energy and can supply it to various devices through multiple output options.

How much does a power station Solar System cost?

Pricing starts at \$29,500 inc GST for an 'average' home. The Power Station Independent Energy System (IES) is a new concept in independent living. Made by Power Station in New Zealand, it's a fully off-grid solar power system that can be installed in an existing grid-connected home.

What are ecoflow portable power stations?

EcoFlow portable power stations are battery-powered generators that keep your gear charged up and ready wherever you are. From family camping to home backup, get yourself convenient power without the noise, fumes, and fuss of a traditional gas generator.
