

NKOSITHANDILEB SOLAR

Solar power system for cabin in Slovakia

51.2V 150AH, 7.68KWH

Overview

Who is Slovak solar?

Slovak Solar s.r.o. is a leading photovoltaic wholesaler in Slovakia, Czech Republic and Austria, with a vision to create a sustainable energy future. We started our journey in 2009 with the main idea – to provide companies specialised in the installation of solar systems with access to first-class photovoltaic products, all from one place.

Why should you choose Slovak solar?

At Slovak Solar, we believe that progress comes from constant innovation. From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV).

What is BIPV & how does it work in Slovakia?

From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV). We led the way with the first-ever 400kWh Battery Backup System, even before container-based battery systems became mainstream.

What's new in Slovakia's Ecocapsule box?

Slovakia's Ecocapsule just traded its famous egg shape for something far more sensible. The new Ecocapsule Box ditches the quirky pod aesthetic for a clean rectangular form that feels refreshingly honest about what it is—a tiny home that wants you to live in it.
