

**NKOSITHANDILEB SOLAR**

# **Solar water pump solar power supply manufacturer**

## Overview

---

What is solar water pumping system?

Solartech solar water pumping system help to solve the problem of land desertification. The project was installed and completed in Naypyidaw, Myanmar in 2015, using Solartech PB first generation 3700W inverters. This device not only meets the drinking water needs of 800 people, but the remaining water is also used to irrigate 100 acres of rice.

What is Solartech water pumping system?

Solartech solar water pumping system now provides the community with a continuous and safe drinking water source, significantly improving residents living conditions. Shenzhen Solartech is making a spectacular appearance at Area C Booth 15.3H20, attracting a steady stream of global visitors since the morning in Canton Fair.

What is Solartech solar water supply system?

Solartech solar water supply system provide perfect cost-effective solutions and application products for domestic water in remote areas. Solartech solar water-saving irrigation system help to solve agriculture and forestry irrigation problems. Solartech solar water pumping system help to solve the problem of land desertification.

Who is Solartech envoy & water porter?

Contact SOLARTECH to get the customized solar pumping system solutions! Shenzhen solartech being solar envoy, water porter, is a professional manufacturer of solar pumping systems. We provide a variety of solar technology energy and solutions to meet your needs.
