# **South Sudan exports energy storage equipment**

## Overview

---

What goods are exported from South Sudan?

The top 2 most valuable exported goods from South Sudan are crude oil and processed petroleum oils. Combined, South Sudan's leading pair of energy exports accounted for 95.7% of the country's overall revenues from export sales. Such a high percentage belies an intensely concentrated portfolio of exported products.

What are net exports in South Sudan?

In a nutshell, net exports represent the amount by which foreign spending on a home country's goods or services exceeds or lags the home country's spending on foreign goods or services. South Sudan has highly positive net exports in the international trade of crude oil and, to a much lesser extent, refined petroleum oils.

How much crude oil is exported from Sudan and South Sudan?

Sudan and South Sudan averaged about 145,000 b/d of crude oil exports between 2014 and 2023, according to estimates by Vortexa and EIA. Total crude oil exports from Sudan and South Sudan have declined over the past decade as a result of lower overall production from both countries.

What are the top exports of South Sudan in 2023?

In 2023, the top exports of South Sudan were Crude Petroleum (\$576M), Refined Petroleum (\$31M), Forage Crops (\$27.7M), Gold (\$27.4M), and Scrap Iron (\$14.9M). The top destinations were China (\$354M), Singapore (\$206M), United Arab Emirates (\$67M), Germany (\$29.6M), and Uganda (\$23.6M).
