FLEXIBLE DEPLOYMENT

## Overview

---

Why should Sudan promote solar energy technology?

Sudan's national sustainable development process, which aims for a low carbon and resilient development, should serve as a driver in promoting solar energy technology. This technology strongly promotes the 17 UN adopted Sustainable Development Goals to be accomplished by 2030 (listed below).

Which countries export Sudan?

The most common destinations of the exports of Sudan are United Arab Emirates (\$1.09B), China (\$882M), Saudi Arabia (\$802M), Malaysia (\$470M), and Egypt (\$387M). Explore detailed trade data with VizBuilder — an interactive tool offering long time series, subnational breakdowns, and expanded datasets.

How much money does Sudan export in 2023?

In 2023, Sudan exported a total of \$5.09B, making it the number 128 exporter in the world. During the last five reported years, the exports of Sudan have increased by \$419M from \$4.67B in 2018 to \$5.09B in 2023.

Which country imports the most into Sudan?

The main import partner of Sudan is China (78 percent). This page provides information on Sudan's exports, including actual values, historical data, forecast, chart, statistics, economic calendar, and news. Other major import partners include the UAE, Japan, Saudi Arabia, and Italy.
