# **Super Battery Cabinet Model**

## Overview

---

What is a lithium ion battery storage cabinet?

Our Lithium Ion Battery Storage Cabinet LBSC-A10 is designed for secure storage of lithium-ion batteries in labs, workshops, and small industrial units, offering fireproof protection in compact spaces. Labtron Lithium Ion Battery Storage Cabinets are engineered for secure storage and controlled battery charging environments.

How many batteries can a battery cabinet support?

The battery cabinets are available in five different mechanical dimensions. They can facilitate multiple combinations of batteries, up to 63 battery blocks, connected in series and parallel configurations with positive, negative, and mid-point poles. The battery cabinets also support a maximum Direct Current (DC) voltage of 800Vdc.

What is a lbsc-a10 battery storage cabinet?

Labtron is a leading supplier of the Lithium Ion Battery Storage Cabinet. The LBSC-A10 features an 18 L sump, five shelves supporting 75 kg each, and DN75 air ducts, ideal for secure battery storage.

What is a super battery?

SuperBattery is an innovative technology combining the characteristics of supercapacitors and batteries. Less than 90 seconds of charging, eliminating long charging breaks. SuperBattery has more than 10 times more charge-discharge cycles compared to Lithium-Ion batteries, providing much longer lifetime.

## Super Battery Cabinet Model
