# Supercapacitor production in Western Europe

## Overview

---

Will Skeleton Technologies & Siemens make supercapacitors in Germany?

Leipzig, Germany - 19th July 2022: Skeleton Technologies and Siemens are announcing a far-reaching technology partnership for the development, planning and implementation of a fully automated, digitalized manufacturing plant to produce supercapacitors in Germany.

What is the global supercapacitor market?

Supercapacitors, also known as ultracapacitors, are becoming a critical component in modern energy storage solutions. According to Statistics MRC, the Global Supercapacitor Market is accounted for \$5.08 billion in 2024 and is expected to reach \$11.16 billion by 2030 growing at a CAGR of 14.0% during the forecast period.

Where does skeleton manufacture supercapacitors?

Skeleton will invest 220 million EUR in scaling up its production of supercapacitors in Germany. The company has chosen Markranstädt in Leipzig area to establish its second manufacturing site in Saxony, with SOP expected in 2024.

How many supercapacitor cells will skeleton produce in 2024?

The new factory for the next generation of supercapacitor cells in Markranstädt is scheduled to start production in 2024 and produce up to twelve million cells a year. The factory will have 40x more output than Skeleton's other site in Saxony, which will continue as an R&D factory in the future, and 240 jobs are expected to be created.
